

Barb & Martin
Stouffville

Greg was a tremendous help to us when we moved into our new house this year. We didn't know anyone in town and fortunately we got a recommendation for Greg. He got us started. He installed the oven, dishwasher, washer and dryer and stove top. He wall mounted a television and installed several complicated light fixtures. He is a wealth of information and there seems to be no end to the jobs he can do.

Greg is trustworthy and punctual. He is tidy and keeps us informed of every step. We have confidence in him and his work. He recently completed a tiled backsplash in the kitchen. He did a wonderful job. We are very happy. We have him scheduled to do minor electrical work and then drywall. We will definitely continue to use his services.

I recently learned that Greg does interlocking and decks. Come spring, our first stop will be Greg. I have no problem at all in recommending Greg to my friends and acquaintances.

Thanks Greg, I'm glad we got to know you.
